

Our First Ever AGM

On May 28th we held our first ever Annual General Meeting. Hugh Latif, Chairman of our Board of Directors, welcomed over 50 investors to our pilot site in Mississauga for an afternoon filled with official shareholder business, but also the aroma of tasty food, laughs and smiles of our guests.

Our board members and leadership team got the chance to meet and chat with our investors about the experience and build. Guests explored our current destinations and got a peek into the progress of our Niagara build - they even got a sense of scale for the Horseshoe Falls as they sat inside of it for the meeting.

Presentations were given by our Chairman, Hugh and Financial Officer, Kim Kearney. Jean-Louis Brenninkmeijer, our President, presented us with a founder's statement which reflected on his passion and journey of building Our Home & Miniature Land. John Phillipson, VP of Business Development, presented our guests with an exclusive first look into our new brand. And Dave MacLean, our VP of Build, took the group through the attraction experience and layout that we are building for launch.

Who doesn't like loot bags, especially when they come filled with Canadian treats! Each guest was given a special gift bag containing a variety of Only-in-Canada items, like ketchup chips and coffee crisp, a Nanaimo bar recipe, Kraft Dinner and Clearly Canadian sparkling water. The gift bag also included a t-shirt with our new **Little Canada** brand - a perfect outfit to wear for Canada Day - wink, wink!

With tiny sandwiches in one hand and their **Little Me's** in the other, our guests left with feelings of anticipation and excitement for things to come. We can mark this one off as a success!
